FIT Bodywrap is Effective in Removing:

- Fats
- Cholesterol
- Ammonia
- Sulfuric Acid
- Nicotine
- Alcohol
- Toxic Heavy Metals

➤ With Regular FIT sessions the body will become less toxic, therefore retaining less fat for toxic storage.

➤ As the body becomes less toxic, proper metabolism and immune system strength are restored.

Healthy Lifestyle

detox, relieve pain

and

lose weight

Proven

results

backed by years of
clinical research

Far Infrared Heat (FIR)

can penetrate 1-2 inches –

heating up areas where
Fat cells & toxins are stored

Approximately

15% of sweat during **FIR**

is fats & toxins

compared to only 3-5%
with normal exercise
